Creating a safer world for our children

arteviva.com

ABOUT ARTE VIVA. For over 25 years, Arte Viva has been the global leader in innovative child safety solutions for childcare centers and schools. Thousands of institutions in over 60 countries rely on our products to create a safe environment for children.

Our mission:

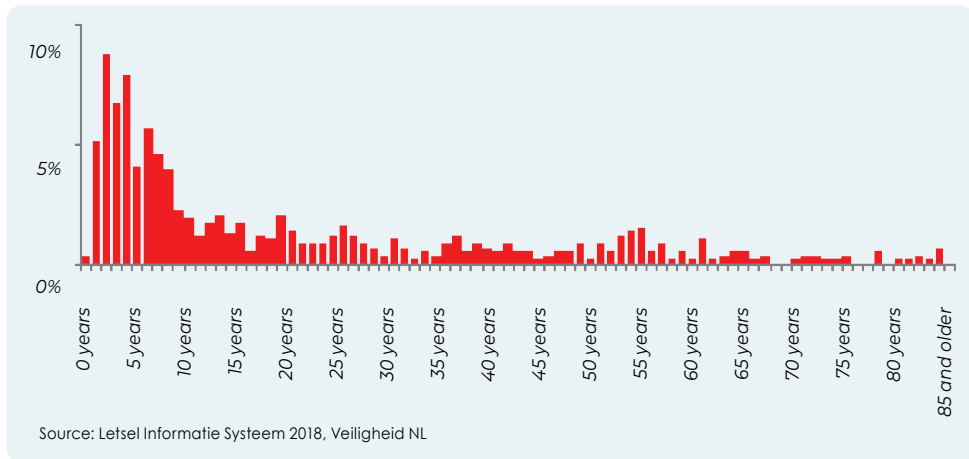

“To create a safer world for our children by reducing the number of accidents in childcare centers and schools.”

Accidents involving children can have traumatic consequences. Imagine a child seriously injuring themselves on a sharp corner or getting their fingers caught in a door. That’s why we work daily to prevent these types of accidents. With our professional and effective solutions, we create an environment where children can learn and grow safely.

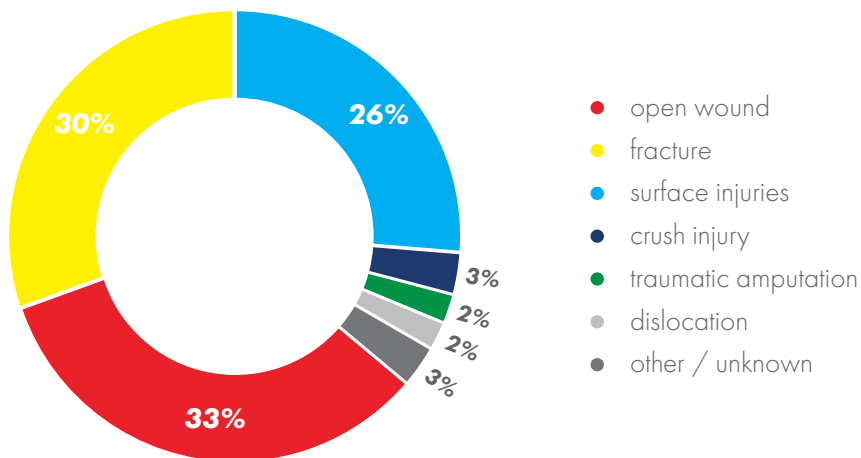

At Arte Viva, we believe in a sustainable future for our children. We take environmental friendliness seriously, both in how we develop our products and in our business operations. We strive to create sustainable solutions that minimize our impact on the planet without compromising quality or safety.

Let kids play.
Arte Viva keeps risks and sharp edges away.

Finger entrapment is most common among children from 1 to 8 years old

Type of finger entrapment injuries
